

# SUSTAINABILITY IN THE WAKE OF SUMMER 2018

LINKING THE GLOBAL AND THE LOCAL AS CANADA RESPONDS TO A MOUNTING WATER CRISIS

Drawing on current events and recent water crises, join sustainability expert Bob Sandford to explore lessons learned in 2018 and the implications for future water sustainability and policy and law reform responses. He will discuss the capacity of the Canadian water sector to meet—and help others meet—the United Nation’s sustainable development goals with respect to water domestically, and describe the real opportunity for Canada to step up as a leader in freshwater sustainability, including the potential of a modernized Canada Water Act to effect on-the-ground change by linking global water challenges with local solutions.

**Bob Sandford** holds the EPCOR Chair in Water and Climate Security at the United Nations University Institute for Water, Environment and Health.

**WHEN:**

January 17, 2019

**TIME:**

4:00PM - 5:30PM

**WHERE:**

David Strong Building  
Room C103

**Discussant :** Oliver M. Brandes  
(Associate Director, Centre for Global Studies; Project Lead, POLIS Water Sustainability Project)

POLIS Project on Ecological Governance
